

### What is the Job Board?

*The Crystal Umbrella Job Board was launched following numerous requests from our affiliated agencies and members who were looking for a simple and trusted job site that respects privacy.*

The Job Board forms part of the Professional Passport network which provides direct access to thousands of contractors, through many of the leading service providers; as well as the many members of Professional Passport.

The Crystal Job Board is more than a job site; it is a full jobs network providing instant access to thousands of active contractors and permanent workers, all looking to progress their careers. It allows our affiliated recruitment companies to work closely with us, safe in the knowledge we have been audited and approved as a compliant provider by Professional Passport.
