

Job Board

What is it?

The Crystal Umbrella job board was launched following numerous requests from our affiliated agencies and members who were looking for a simple and trusted job site that respects privacy.

The Crystal Umbrella job board forms part of the Professional Passport network, members of Professional Passport including many of the leading recruitment companies, providers of services to contractors as well as thousands of contractors.

Crystal Umbrella Jobs is more than a job site; it is a full jobs network with providing instant access to thousands of active contractors and permanent workers all looking to continue their careers.

It allows our affiliated recruitment companies to work closely with us safely in the knowledge we have been audited and approved as compliant provider by Professional Passport knowing they, and their contractors, remain safe from HMRC attention.

What benefits does it provide?

The benefits to agencies and clients equal that offered by any of the corporate job board suppliers with one main difference, **ours is FREE**, we will even supply **FREE** vacancy posting software to automate the process, which if purchased could sometime run into thousands.

See the job board flyer for more details on the benefits available.
